

While we understand the process of getting cleared through the safety process can seem overwhelming, we remain committed to streamlining the process for all who wish to participate with GLL. The different criteria for each position have been dynamic year to year. For 2026, the changes are simplified and reflected below based upon Little League Regulations, State Law, and Granada Little League Policies. **Once the necessary steps are completed and on file with our Safety Officer, you will be issued a GLL Badge which is to be required to be worn while representing Granada Little League during practices or games as a Coach, Manager, or Umpire.**

Board Members who are on campus in their official capacity will also be required to wear their badges. **Badges from prior years will be updated annually with a new sticker or replaced as needed.**

The Manager for each team will serve as the point of contact between the Safety Officer and each Coach. This is done to facilitate efficient communications throughout the Safety Process. **The Manager will be responsible for providing the name and email address for each volunteer who will be assisting with practices or games. To start the certification process, please email your manager with your name, email address and Position (Coach, Umpire, etc.).**

\*For families with multiple players, the volunteer will be cleared through the team of the oldest player registered with GLL. Volunteers only need to be cleared once with GLL and do not need to be cleared with each team they participate with.

Background checks (JDP) will go through Sports Connect this year. Follow directions in the attachment above to log onto or create your Sports Connect account. The Safety Officer is notified once the JDP Process has been completed and there is NO NEED to send in any certificate by the applicant. The UIC (Umpire in Charge) will send the names and email addresses for all Adult Umpires needing to be cleared.

### **LiveScan**

California AB 506 requires all adults volunteering with Youth Sports to be fingerprint background checked if they anticipate having more than 16 hours of contact with youth players in a month or 32 hours in a year. GLL has embraced this process fully and requires ALL Board Members, on-field Managers, Coaches and Adult Umpires to get a Live Scan. The Live Scan remains in place for subsequent years (except in the case of name change) and only needs to be done once.

### **Heads Up Concussion Training**
